S6-GR1P (0.7-3.6)K-M series inverter is designed for residential PV plants. The maximum input current per string is 14A, which is compatible with high-efficiency modules and bi-facial modules.

And can support multiple inverters in parallel to form a single-phase or ...

The Solis Series 6 3,600W inverter is designed for small residential rooftop solar installations, offering high efficiency, dual MPPT functionality, and ...

Hybrid Inverter SUN 3.6/6K-SG,hybrid inverter, is suitable for residential and light commercial use, maximizing self-consumption rate of solar energy and increasing your energy independence.

Hybrid Inverter SUN 3.6/6K-SG,hybrid inverter, is suitable for residential and light commercial use, maximizing self-consumption rate of solar ...

The Solis S6-GR1P3.6K-M-DC is a 3.6kW single phase inverter from the S6 Mini Series. Designed for residential PV plants, the inverter has a maximum input current per string of 19A, ...

SunArk factory operates 4 production lines across a 30,000 m² area, employing over 200 production staff. Our office team comprises 4 sales teams totaling over 50 members, alongside ...

A high-efficiency, reliable hybrid solar inverter for residential systems. It offers grid-tied functionality, max. 16pcs working in parallel, time-of-use ...

INVT Solar, is a solar products and solutions provider with core inverter ...

INVT Solar, is a solar products and solutions provider with core inverter technology, specializing in the
