What does the PU's Energy Storage Procurement Framework do?

The PU's Energy Storage Procurement Framework provides crucial motivation to the development of both demand and supply in this marketplace. Since the time of Assembly Bill 2514 and through 2021 California built a rich ecosystem for energy storage research and development, commercialization, and project deployment.

Who published the CPUC Energy Storage Procurement Study?

This work has been developed and published by Lumen Energy Strategy, LLC in Oakland, California under commission by the California Public Utilities Commission.

What type of energy storage projects are recent contracts for?

Recent contracts are predominantly for much larger transmission-connected energy storage projects. Earlier energy storage contracts were significantly more expensive across all grid domains, and they generally reflect the cost reductions seen in the global storage industry.

What are energy storage contracts?

These contracts allocate the risks of project development, construction, and performance between the parties and include the price that will be paid by the utility for the resource or the energy storage services that are to be provided.

In evaluating the appropriate contract structures for the initial procurement of utility-scale energy storage resources, stakeholders provided insights on two primary mechanisms: indexed ...

Massachusetts's first " Section 83E " procurement for energy storage is underway, with bids due Wednesday, September 10, 2025, at noon.

An overview of Energy Storage Targets across 50 U.S. States, with state-by-state policy progress, key resources, and model rules.

BOSTON (SHNS) - Having thrown the brakes on its offshore wind procurement plans, the state is moving quickly towards the first of at least four planned solicitations for energy storage...

Massachusetts has issued a Request for Proposals (RFP) to solicit bids for long-term contracts for up to 1500 MW of energy storage projects.

As discussed in greater detail below, these different approaches have significant implications for how energy storage is developed, procured, and financed in these states. ...

Massachusetts has issued a Request for Proposals (RFP) to solicit bids for long-term contracts for up to 1500 MW of energy storage ...

Massachusetts's first " Section 83E " procurement for energy storage is underway, with bids due Wednesday, September 10, 2025, at ...

Chapter 1 (Market Evolution) provides historical policy and planning context to the evolution of California's market for stationary energy storage from about 2010 when California Assembly ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), ...

The procurement schedule, consistent with Section 83E will ensure: (i) approximately 1,500 megawatts of Mid-Duration Energy Storage shall be procured by July 31, ...

BOSTON (SHNS) - Having thrown the brakes on its offshore wind procurement plans, the state is moving quickly towards the first of at least ...
