-----  
How many 132/33/ 11kV substations are being built in Dubai?

This project is coming in addition to the 3 132/33/11kV substations built up from 2017 to 2019. EDF has conducted numerous strategic projects from feasibility study of interconnecting transport networks in the Emirates to backing the construction of distribution centers in Dubai, Abu Dhabi, Al Ain, Sharjah and Fujairah.

What is EDF doing in Abu Dhabi?

EDF, through its Power System and Transmission Engineering Centre has conducted numerous strategic projects contributing to interconnecting the Emirates and has backed the construction of distribution centers in Abu Dhabi and Al Ain. EDF signed the first-of-its-kind sub-sea transmission network project to decarbonize ADNOC's offshore operations.

Did EDF build a 400kV substation in Dubai?

Between 2008 and 2013 EDF won and built several substations for DEWA. Several famous districts in Dubai have gained from the 400kV substation, such as Mamzar Beach, Barsha, Technology & Nad Al Sheba.

What is TAQA's new subsea transmission network?

This first-of-its-kind subsea transmission network in the MENA region will connect ADNOC's offshore operations to TAQA's clean onshore power network, unlocking cost-savings and environmental benefits.
