Developed by Voltalia, the 140 MW solar park was commissioned at the end of 2023 and is expected to generate 265 GWh ...

The government of Albania has permitted the development of two new solar plants with capacity of 30 MW and 24 MW, respectively.

The Ministry of Infrastructure and Energy of Albania received four applications for solar power projects with a combined capacity of 235 ...

Albania is taking a significant step forward in its renewable energy journey with the development of a new 50-megawatt solar park in the town of Belsh. This ambitious project, ...

Albania marked a significant milestone in its energy sector with the inauguration of the Karavasta Photovoltaic Park, the largest solar energy facility in the Western Balkans.

The first permit concerns the construction of a PV park of 30 MW in the Povelce village of Fier District in southwestern Albania. The ...

The 50 MWp solar photovoltaic plant will add significant renewable capacity to Albania's grid, supporting the country's transition to a more resilient and sustainable energy ...

TIRANA, July 22 - Albania has signed a financing agreement for the construction of a large photovoltaic park in Belsh, which will provide clean electricity for over 16,100 households, ...

Albania marked a significant milestone in its energy sector with the inauguration of the Karavasta
