Who makes arc-resistant switchgear?

Crown Arc-Resistant Switchgear Crown Technical Systems is one of the few companies in the world that engineers and manufactures arc-resistant switchgear. Our original engineering team pioneered the widespread use of arc-resistant gear throughout Canada.

What is an arc flash?

An Arc Flash is a through-air short circuit event that occurs as a result of a fault condition in an electrical distribution system. Arc resistant refers to the equipment rating achieved by meeting the ANSI C37.20.7 Standard for arc resistant switchgear.

What is arc resistant switchgear?

Arc resistant refers to the equipment rating achieved by meeting the ANSI C37.20.7 Standard for arc resistant switchgear. ArcBlok is a Schneider Electric patented technology applied inside of PZ-4 switchgear which is designed to rapidly quench and transfer an internal arcing fault before it propagates inside the circuit breaker compartment.

What is arc-resistant metal clad switchgear?

Spike Electric's Arc-Resistant Switchgear is a robust solution for managing high-voltage power in industrial settings. Spike Electric's PowerSafe Arc-Resistant Metal Clad Switchgear represents the forefront of switchgear technology.

We have all your switchgear needs, including custom switchgear design, installation and servicing, as well as arc flash studies and mitigation. Learn more!

Available in a wide range of ANSI ratings and configurations, our switchgear features utility-grade, welded, metal-clad assembly for reliability, safety and long service life. nVent arc-resistant ...

PEECO's Arc-Resistant Switchgear, available in both medium and low voltages, follows all ANSI, UL, and IEEE standard requirements to keep operators and maintenance workers safe and ...

Available in a wide range of ANSI ratings and configurations, our switchgear features utility-grade, welded, metal-clad assembly for reliability, safety ...

Power-Zone 4 arc resistant switchgear with MasterPacT MTZ2, 3 and NW ArcBlok technology offers patented, superior arc flash protection for operators and maintenance personnel.

We have all your switchgear needs, including custom switchgear design, installation and servicing, as well as arc flash studies and mitigation. ...

Unlike conventional switchgear, arc-resistant switchgear is designed with reinforced compartments that can withstand incredible pressure increases during high-energy arc faults. ...

Our arc-resistant switchgear is available in a range of fault current ratings to accommodate various levels of electrical demand and safety requirements. From the more ...

Myers Power Products ArcRes Switchgear is designed to protect your personnel and equipment from the destructive energy and force of an arc flash incident. Our ArcRes Switchgear utilizes ...

The unique design of the CBS ArcSafe remote racking system, with its specially manufactured drive shafts and tooling, enables the system to operate with all types of circuit breakers ...

Our arc-resistant switchgear is available in a range of fault current ratings to accommodate various levels of electrical demand and safety requirements. From the more common lower ...

Point Eight Power offers a full line of low- and medium-voltage arc-resistant switchgear to help combat the over 30,000 arc flash incidents that occur each year - causing thousands of ...
