Perfect for any small 24 Volt off-grid or mobile system. You need a 24V battery to operate these units, running them directly on solar without a ...

Shop Solar Powered Air Conditioner Systems at HVACDirect for cooling with renewable power. Free shipping available on select models.

Solar-powered air conditioners utilize the energy from the sun to operate, making them an eco-friendly and cost-effective alternative to traditional air conditioning systems.

Perfect for any small 24 Volt off-grid or mobile system. You need a 24V battery to operate these units, running them directly on solar without a battery will not work and can damage the units.

The extremely low wattage allows the Solar Chill solar powered air conditioner to operate well on just one or two PV panels during daylight hours. No batteries required.

This solar-powered air conditioner is the perfect solution for remote areas where access to traditional electricity may be limited. It provides efficient cooling powered by solar energy, ...

This brand makes a hybrid solar powered air conditioner. Like the Gree, it can run on DC current directly from solar panels or on power from the grid when needed.

Users of the EG4 mini-split can save money when compared to conventional central air conditioning systems. Pair this unit with a small string of solar panels to immediately begin ...
