-----  
Are there private solar companies in Costa Rica?

There are many private companies, most of them members of ACESOLAR (Costa Rican Solar Energy Association), and the CDG (Chamber of Distributed Energy Generation of Costa Rica). They have changed the current legislation opening the market and allowing more solar panels and batteries to be installed.

Can a company sell solar panels in Costa Rica?

Most companies selling solar systems are assembled Asian solar panels with some U.S. made components. In 2016, the Costa Rican government approved a new regulation which allows individuals and companies to produce solar energy (up to 15 percent of the users per district) and sell up to 49 percent of their excess production back to the grid.

How many solar systems are installed in Costa Rica?

ICE has installed 2,559 systems in homes, 649 systems installed for community activities, and 132 systems installed in conservation areas. There are three major solar parks in Costa Rica; Juanilama by Coopeguanacaste, Pocosol by Coopelesca, and Valle Escondido that will be built in 2021 by BMR Energy, contracted by ICE but not in use.

Does Costa Rica export solar panels?

The U.S. continues to grow slightly every year, even in a depressed market that slowed after new the VAT was implemented. Exports from Costa Rica are also of imported products from other countries. Most companies selling solar systems are assembled Asian solar panels with some U.S. made components.
