This milestone represents Brunei Darussalam's largest government-led solar project to date and the first large-scale solar initiative under a Public-Private Partnership (PPP).

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

Solar container bandar seri begawan plant operation Scheduled for operation by the end of 2026, it will produce over 64,000 megawatt-hours annually, powering more than 15,500 homes, ...

It will be constructed on a 332,900-square-meter former landfill site in Kampong Belimbing, Mukim Kota Batu, Brunei. The project is anticipated to achieve operational status ...

This milestone represents Brunei Darussalam's largest government-led solar project to date and the first large-scale solar ...

Strategically situated on a 32.29-hectare remediated landfill site near the capital, the solar plant transforms previously unused land into a productive clean energy asset.

The project, which is to be located at Belimbing near Bandar Seri Begawan, will be a crucial step in the country's renewable energy initiative. It will be a mega government-led ...

Designed to integrate renewable energy sources like solar and wind into the national grid, this initiative addresses the intermittent nature of clean power generation.

Solarvest Holdings Berhad, through its wholly-owned subsidiary Atlantic Blue, has secured Brunei's largest
