-----

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our expertise extends to the design and manufacturing of specialized lithium battery storage containers, ensuring the safe handling and transportation of volatile materials.

Whether you need a modified shipping container solution or a PDC skid, our team of experts will work with you to design and install the perfect solution for your needs.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and ...

With its stackable and expandable architecture, it is easy to scale capacity and maintain. Safety and reliability are paramount, with maximum protection provided by the robust LFP battery and ...

Our custom low-temperature batteries are specially designed to excel in cold environments. These battery packs discharge below -50°C with high capacity retention and effectively charge ...

Lithium iron battery, solar system, Solar inverter, PWM or MPPT controller, solar battery and PV combiner box. Experienced in complete solar system design and configuration from 300W to ...

For a "PV ready" application, Solar PV Inverters can be mounted on the outer wall of the containers and offered as turn-key solution. The containerised system is customizable and can ...

Battery energy storage system designs require specialty enclosures, and modified shipping containers are
