The Power:Container is an autarcic energy supply without the necessity of an electrical grid connection. With this efficient and climate friendly concept Ge:Net GmbH offers ...

Our solutions let you reliably supply power to container ships and terminals, large passenger ships, yachts, and boats of all sizes.

ELCOS offers the possibility of installing power generators inside CONTAINERS Iso Range 20/20HC" - 30/30HC" - 40/40 HC" according to ...

Power supply comes from a cable connection to the grid, or from suitable generators, at low or medium voltages. A wide range of high voltage, CW DC, pulsed or modulated waveform ...

Our Containerised generators can be designed and tailored to suit your specific requirements, such as combining a UPS (Uninterruptable Power Supply) and Diesel generator into one ...

MITTRONIK Engineering is specialised in customized solutions. The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, ...

The containerized unit includes a generator set, switchgear - including a control and monitoring system - together with all necessary connections and supply systems (such as ventilation, ...

Our containerised solutions are designed to provide optimal performance across various site conditions,

ensuring excellent reliability for all your power generation needs.

The Atlas Copco QEC generators packs a punch, up to 1 megawatt of containerized power that can be easily transported from one worksite to the next. Supremely reliable, it is the flexible ...

Containerised energy solutions respond to the evolving demands of power supply. Housing generators, transformers or battery systems in containers offers clear advantages in terms of ...

The containerized unit includes a generator set, switchgear - including a control and monitoring system - together with all necessary connections ...
