-----

Last October, the government launched a public consultation for renewable energy generation and up to 350MW of new storage capacity, and earlier this year, the government committed ...

Plans for 1 GW of new solar in Serbia are set to go ahead after the signing of an implementation agreement.

While Belgrade isn't Dubai, its location on the Danube River makes it ideal for pumped hydro storage - think "water batteries". A 2024 study proposed storing excess wind energy by ...

The Belgrade solar-storage project [1] [2] combines fixed solar panels with mobile battery units that can be repositioned as seasons change. It's like having solar panels that ...

Ever wondered how cities will keep lights on during blackouts or store solar energy for cloudy days? Enter the Dushanbe Belgrade Energy Storage Project - a game-changer in grid-scale ...

There are exponential opportunities for energy storage investments to facilitate the green transition, main developers and operators in Southeast Europe said at Belgrade Energy Forum.

The city's new 140MW photovoltaic + storage project isn't just another solar farm - it's Serbia's first large-scale marriage of solar generation with lithium-ion battery storage. Think of it as a giant ...

As we approach Q4 2025, watch for Belgrade's first virtual power plant aggregating 5,000 residential storage units--a game-changer for grid flexibility during winter peaks.

hip (PPP) at Vinca, Belgrade, Serbia. The project is intended to replace the existing landfill at Vinca which has accumulated more than 10 million tonnes of waste over four decades

Quick Summary: As Belgrade embraces renewable energy solutions, advanced energy storage systems are becoming critical for grid stability and cost efficiency. This article explores ...
