Why was Belmopan built?

Belmopan was constructed with British aid following the devastation of Hurricane Hattie in 1961 that demolished approximately 75% of the homes and business places in Belize City. The government of then Premier George Price promoted the building of a new capital city more inland, safe from tropical cyclones.

Where is Belmopan located?

In 1962, a committee chose the site now known as Belmopan, located 82 kilometers (51 miles) west of the old capital of Belize City. Belmopan is 76 metres (250 ft.) above sea level, near the Belize River Valley, with an imposing view of the majestic Mountain Pine Ridge mountains. It enjoys cool climate conditions at night. Work began in 1967.

Does Belmopan have a bank?

Belmopan is one of the few places in Belize with branches and ATMs of all banks operating in the country. These include the Belize Bank, Atlantic Bank and Heritage Bank.

We focus exclusively on R&D, manufacturing, and sales of industrial and commercial energy storage solutions, adhering to the highest industry safety and quality standards.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions ...

We pride ourselves on customisation, designing dimensions and specifications to suit customer environments, locations and specific scenarios. Our commitment to customisation ensures that ...
