Why do you need a lithium-ion battery storage container?

These storage solutions help prevent thermal runaways, exothermic reactions, and other risks associated with lithium-ion batteries. DENIOS offers a range of lithium-ion battery storage containers that meet stringent safety standards, ensuring reliable and secure storage.

What are lithium-ion battery storage solutions?

Lithium-ion battery Storage solutions are revolutionizing safety standards across multiple industries. Our storage solutions are indispensable in the automotive sector, where they provide secure storage for electric vehicle batteries and consumer electronics, ensuring the protection of batteries in laptops and mobile devices.

Are lithium ion battery storage containers safe?

Safety and Compliance: Lithium-ion battery storage containers are designed to meet OSHA and ADR regulations. **Versatility:** It is suitable for a wide range of batteries, including e-bikes, power tools, laptops, and electric vehicles. **Size Options:** Available in various sizes to accommodate different storage needs.

What is a lithium battery?

Lithium batteries are CATL brand, whose LFP chemistry packs 1 MWh of energy into a battery volume of 2.88 m³ weighing 5,960 kg. Our design incorporates safety protection mechanisms to endure extreme environments and rugged deployments. Our system will operate reliably in varying locations from North America to sub-Saharan Africa.
