How many solar energy storage systems have been evaluated by HTW Berlin?

22 home storage systems have been evaluated by the HTW Berlin, including new products from Fox ESS, Fronius, Kostal and SAX Power. March 6, 2025 22 solar energy storage systems from a total of 17 manufacturers have been evaluated by the HTW Berlin University of Applied Sciences in this year's Energy Storage Inspection.

Where can I contact HTW Berlin for a solar storage inspection 2024?

Interested manufacturers can contact the Solar Storage Systems research group at HTW Berlin directly. The Energy Storage Inspection 2024 was developed as part of the „Perform“ project, which is funded by the Federal Ministry of Economic Affairs and Climate Action (BMWK).

What is home energy storage?

Home energy storage refers to residential energy storage devices that store electrical energy locally for later consumption. Usually, electricity is stored in lithium-ion rechargeable batteries, controlled by intelligent software to handle charging and discharging cycles. Companies are also developing smaller flow battery technology for home use.

How many energy storage systems are there in 2024?

New additions in the 2024 Energy Storage Inspection: eight hybrid inverters and eight battery storage systems, including some from Dyness, Goodwe, Hypontech, Kostal and Pylontech. The Solar Storage Systems research group attested 16 home storage systems a high energy efficiency.
