Why is Buenos Aires investing \$540 million in energy storage?

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for Argentina - and potentially, a blueprint for the entire region. What role will energy storage play in your country's energy transition?

Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

Is Buenos Aires a model for grid modernization in Latin America?

Over 667 megawatts of energy storage capacity are headed for the Buenos Aires Metropolitan Area (AMBA), representing an investment exceeding half a billion US dollars. This isn't just about avoiding summer blackouts; it's a pivotal moment for Argentina's energy future, and a potential model for grid modernization across Latin America.

These new developments will be added to the 26 solar parks already operational in Buenos Aires. Together with the renewable ...

Intended to strengthen the grid in the greater Buenos Aires region, the program has attracted a lot of attention; it has been ...
