Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, ...

Three years ago, SCU deployed the country's first 40ft containerized energy storage system at a solar farm in Bulgaria, setting a ...

Bulgaria's largest commissioned system to date is a 25MW/55MWh installation by Renalfa (June 2024), followed by an 18.7MWh project from China-based Sermatec. In ...

In partnership with Trakia MT Ltd., a leading Bulgarian solar company, the system is installed on a solar farm and features 90 Sigenergy C& I hybrid inverters combined with the ...

Sigenergy brought together over 250 global energy professionals in Burgas to explore the future of commercial and industrial (C& I) energy storage.

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in ...

Bluesun and the Nepedoni team introduced a Liquid Cooling Energy Storage Container Project in Bulgaria, featuring high-efficiency thermal management and modular design to support ...

Stacks are primarily used for home systems but Sigenergy has installed a 10 MW/20 MWh project at a solar site in Malko Tarnovo. ...

Three years ago, SCU deployed the country's first 40ft containerized energy storage system at a solar farm in Bulgaria, setting a precedent for large-scale industrial and ...
