Where can I buy a 15kW solar system?

At A1 SolarStore we offer complete 15kw solar systems for sale where all the parts are already picked by our engineers. The majority of commercial-scope systems are grid-tie which means that you retain the connection to the grid when you add solar. Your appliances use solar energy all the time so that your bills decrease significantly.

What is a 15kW solar system?

Generating approximately 1,400 to 3,000 kWh of energy each month, 15kW solar systems are perfect for homeowners with larger homes and higher electricity needs. Select from an array of 15kW solar systems, including grid-tie with or without batteries and off-grid options. Or reach out to our experts for a custom solar system! Shop What's in a kit?

How much does a 15 kW solar kit cost?

Buy the lowest cost 15 kW solar kit priced from \$1.13 to \$2.00 per watt with the latest, most powerful solar panels, module optimizers, or micro-inverters. For home or business, save 26% with a solar tax credit. Click on a solar kit below to review parts list and options for battery storage, EV charging and installation.

Does a 15kW solar system have batteries?

You can also go for hybrid variation or 15kw off grid solar system. In this case your system will also have batteries that will be your backup for a power outage. Hybrid systems allow you to retain the option of a net metering but with an interrupted power supply as well. Some ask, how many batteries for 15kw solar system do you need?

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ...

Our solar module pallets and collapsible bulk bins are engineered for real jobsite conditions--reducing waste, cutting breakage, and improving logistics from transport to ...
