Who is involved in sustainable electronics in Cambodia?

For a comprehensive list of these stakeholders, please refer to the Annex F. In Cambodia, no initiatives or NGOs focus exclusively on sustainable electronics. However, multiple issues in other industries (such as the garment sector) are also present in the EEE sector.

Does Cambodia have a sustainable electronics industry?

In Cambodia, no initiatives or NGOs focus exclusively on sustainable electronics. However, multiple issues in other industries (such as the garment sector) are also present in the EEE sector. As Cambodian electronics manufacturing increases its GDP share, adaptation of initiatives to this specific industry seems ineluctable.

What is the electrical and electronic market in Cambodia?

The Cambodian market for electrical and electronic products is segmented into two main categories: low-cost products from China with varying quality, and high-quality products for customers who are willing to pay more.

How many people work in Electrical & Electronics Manufacturing in Cambodia?

In 2021, Cambodia has approximately 54,000 people working in electrical and electronics manufacturing, which account for about 1.43% of the country's total employment. For comparison, the industry employed 600,000 people in Thailand (1.57% of the workforce) and more than a million in Vietnam (1.78% of the workforce).
