Can you bring a power bank on a plane?

Always pack your power bank in your carry-on --they're not allowed in checked luggage. Batteries under 100 watt-hours (Wh) are automatically allowed. This covers most standard phone and tablet power banks. If your charger is between 100 and 160 Wh, you can bring up to two--but you'll need approval from the airline before you board.

Can I ship a power bank internationally?

A Complete Guide Yes, you can ship a power bank internationally, but strict regulations apply due to lithium battery risks. Airlines and couriers require compliant packaging, safety certifications (UN38.3), and hazard labels. Prohibited destinations include Iran, North Korea, and UAE.

Can you bring a powerbank inside a commercial jet?

Yes, you may bring a power bank inside an airline cabin under the current IATA safety rules. But there are certain things to know and restrictions to consider when bringing powerbanks inside a commercial jet: The size of the powerbank (in terms of Watt-hour rating); The amount of charge it can carry (the percentage of charge);

Can you travel with a power bank?

Inspect for damage: Do not travel with a power bank that's cracked, swollen, leaking or overheating. Get approval if needed: Contact your airline in advance for any power bank between 101 Wh and 160 Wh and carry written proof of approval.
