---

In 2024, the EU was on track to achieve the target of the EU Solar Energy Strategy of 600 GWac (~720 GWp) installed PV capacity by 2030. Based on preliminary data for 2024, ...

Explore Europe's 2024 solar boom, with gigawatt-scale projects in Germany, Spain, and beyond driving a historic shift in the continent's energy landscape.

The project is industry driven, gathering 20 organisations from across the entire solar PV value chain. SolarPower Europe is in charge of communicating and distributing project results to the ...

SolarPower Europe is responsible for communications, while supporting market analysis and policy activities, in this three-year Horizon Europe funded project, which will aim to: offer ...

Discover the EU's PV Innovation Partnership. Learn how this key European solar initiative, with EUR240M in funding, aims to boost PV manufacturing and energy independence.

Aiming to accelerate Europe's solar PV manufacturing capabilities to ensure continental energy security, the new production site will see the capacity of Europe's current largest factory ...

The European Solar Charter, signed on 15 April 2024, sets out a series of voluntary actions to be undertaken to support the EU ...

Photovoltaic (PV) systems use solar panels, either on rooftops or in ground-mounted solar farms, converting sunlight directly into electric power. Concentrated solar power (CSP, also known as ...

The project partners of SOPHIA gathered on 26 June 2025 in Valencia (Spain) to kick-off this Horizon Europe project. Through the development of innovative solutions to boost ...

Discover the latest photovoltaic procurements driving Europe's green energy transition. This article highlights key solar trends, major projects, and future outlooks shaping the EU and UK ...

The European Solar Charter, signed on 15 April 2024, sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

Explore Europe's 2024 solar boom, with gigawatt-scale projects in Germany, Spain, and beyond driving a historic shift in the continent's energy ...
