-----

The large-scale procurement of energy storage equipment by China Power Construction is a microcosm of the rapid development of China's new energy storage industry. ...

Leveraging its best-in-class energy management software and power electronics, FlexGen delivers utility-scale storage projects integrated with traditional and renewable power ...

Georgia Power has secured a battery and equipment supply agreement (BESA) with Tesla for a 500MW/2,000MWh BESS portfolio.

These two projects are equipped with 400MWh of photovoltaic power generation equipment and 602MWh of battery energy storage systems, with a total capacity of ...

With a total investment of RMB 2 billion, the project will proceed in phases: Phase I, starting in Q1 2025, includes a 2GWh equipment production line and a 1GWh lithium iron ...

According to the plan, the project will be put into operation by the end of 2024. By then, the project will have an annual capacity of 2GWh energy storage PACK and system ...

Supports the retention, growth, and expansion of clean energy companies in New York State through strategic industry engagement, educational and financial resources, and partnerships.

Among them, 5MWh liquid-cooled large storage product Gotion Grid, lithium manganese iron phosphate battery and 46 cylindrical series exhibits became the stars of the ...

Sol-Ark(R) provides best-in-class solar energy storage systems and solutions for homes, commercial
