-----

The 500 MW/4 GWh Willow Rock Energy Storage Center would use proprietary compressed-air technology developed by Hydrostor, a Canadian company.

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk ...

Trina Storage has announced the expansion of its strategic partnership with Lightshift Energy, a leading U.S. energy storage developer. Together, the companies will ...

Rongke Power China has just brought the world's largest vanadium flow battery energy project online, marking a massive milestone in long-duration grid-scale energy storage.

China continues to break new ground in energy storage deployment, both in scale and technology. For instance, last November, the first phase of the 500 MW/2 GWh Xinhua ...

Discover the world's biggest battery storage projects of 2025, including BYD's 12.5 GWh system in Saudi Arabia, Greenergy's 11 GWh Atacama project, and more shaping the global energy ...

In September 2025, the CESA offshore energy application committee tracked 31 offshore energy projects under construction, which collectively represent a total capacity of ...

The specs are impressive: 500 MW of power capacity and 1 GWh of energy capacity. While the press release refers to it generally as a "battery energy storage system ...

The project is also one of the world's largest vanadium flow battery energy storage projects to date. The project provides a total installed capacity of 200 MW / 1,000 MWh, ...

While the world debates clean energy shifts, China has quietly launched an energy storage revolution that's rewriting the rules. The numbers tell the story: over 100 gigawatts of ...
