-----

Specializing in grid-scale and commercial energy storage solutions, we've deployed over 200MWh of storage capacity across Central America. Our hybrid systems combine lithium-ion ...

On September 8, 2024, the GSL ENERGY 60kwh wall-mounted battery home energy storage system was successfully deployed in Guatemala, bringing new changes to the local household ...

Spanish company Enerland Group unveils plans to build Magdalena Solar, a 66 MWp photovoltaic park, marking its entry into Guatemala's renewable energy sector. The project aims to ...

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, ...

Summary: Guatemala City is embracing renewable energy with its new energy storage power station. This article explores how the project addresses energy instability, integrates solar

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in ...

A Battery Management System (BMS) in a solar energy setup is responsible for the efficient management of energy storage systems, typically involving batteries, which store excess solar ...

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with
