What is generator switchgear?

Generator switchgear refers to the collection of switches, circuit breakers, relays, and other equipment used to control, protect, and isolate power generators in an electrical power system. It is an essential component of power generation and distribution systems, ensuring the safe and reliable operation of generators.

Does integrated power services sell switchgear?

Integrated Power Services carries a vast inventory of new, surplus and refurbished parts and equipment from leading OEMs. We can also build new switchgear equipment specific to your specifications. Integrated Power Services acquired National Switchgear in 2021.

What is a switchgear generator integrated power center?

This front access compact Pad Mounted Medium Voltage (2.4kV - 38kV) Switchgear is a Generator Integrated Power Center that uses innovative design methods and technology. This allows for the smallest footprint available on the market, while still offering an integrated transformer, output protection, and circuit breaker access.
