What is a hybrid inverter?

A hybrid inverter can manage energy from multiple sources, such as solar panels, batteries, and the grid, allowing you to store excess energy for later use. Standard inverters, however, only convert solar power for immediate use and do not support battery storage.

Do solar panels need an inverter?

Yes, an inverter is necessary for any solar panel system. Solar panels produce DC electricity, but most appliances and the grid operate on AC power. Inverters make this conversion, allowing your home or business to safely use the solar energy generated. How long is the warranty?

What does a solar inverter do?

A solar inverter converts the direct current (DC) electricity generated by your solar panels into alternating current (AC), which can be used by household appliances and fed into the grid. It's an essential component of any solar system, ensuring the energy produced is usable in your home or business. Do I need an Inverter for my solar panel?

What types of inverters are available?

Our range includes single-phase and three-phase hybrid inverters, suitable for residential, commercial, and even industrial applications, providing scalable and reliable energy management. What kind of maintenance does an Inverter need?

Distributor of photovoltaic solar panels, microinverters, solar inverters, solar batteries, self-consumption kits with accumulation, and off grid solar kits.

Discover all relevant Solar Inverter Companies in Portugal, including Energias de Portugal and Asunim Group

Discover a wide selection of high-quality Inverters in Portugal from trusted suppliers. Explore our range of Best Inverters from Portugal and find the perfect fit for your needs.

Before buying solar inverters and supplying them in your local area, you need to be aware of all the

functionalities of solar inverters, and the different types of inverters available.

Convert solar power and ensure reliable energy even in areas with unstable grids. Choose from single & three-phase hybrid inverters.

Take a look at the tried-and-tested models that we have intensively tested and are now installing. Portugal supports self-consumption, but of course you are free to sell your electricity on an ...
