-----  
What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

What are the advantages of a container roof solar system?

1. Integrated Solar Array High-efficiency solar panels installed on the container roof or fold-out frames. 2. Battery Energy Storage Lithium-ion or deep-cycle batteries store energy for use day or night. 3. Inverter & Control Systems Converts solar power to usable electricity with smart monitoring. 4. Weatherproof & Secure

How will tariffs affect shipping containers?

China continues to be the largest supplier of shipping containers in the world, A potential 20 - 30 percent price increase due to tariffs will have a long term effect on production as well as demand.
