Is Huawei a member of Solarpower Europe?

SolarPower Europe has removed Chinese tech giant Huawei as a member, marking the first time the Brussels-based solar industry association has taken such action, an SPE spokesperson has told pv magazine. The board made the decision on April 28, 2025, and "the procedure is continuing as laid out in our statutes," said the spokesperson.

Why was Huawei expelled from Solarpower Europe?

PVTIME - Chinese technology giant Huawei has been expelled from SolarPower Europe (SPE), a prominent Brussels-based renewable energy lobby group, marking the first such expulsion in the association's history. The decision follows an ongoing EU bribery investigation into the company.

Why are Huawei's solar panels being banned in China?

Such restrictions would target Huawei first and foremost, as the dominant Chinese supplier of critical parts of these systems. The fears center around solar panel inverters, a piece of technology that turns solar panels' electricity into current that flows into the grid.

Will the EU ban Huawei products in Europe?

While there is currently no EU legislation banning the sale of Huawei products in Europe, the exclusion from the SPE and the ongoing investigations are expected to affect the company's market share, particularly in the inverter segment where it controls around a third of the market.
