Which Power Inverter should I buy?

The POTEK 500W is an ideal option for buyers looking at car-friendly power inverters to power a slew of electronics and handheld devices. This inverter and its dual 110V AC outlets and two USB ports will have no problem keeping a laptop, Kindle, iPad, or multiple smartphones going with power to spare.

How much power does a power inverter use?

Power inverters vary widely in wattage, from 300W to 3,000W and up. Some can even generate surge power as high as 6,000W. Most power inverters have two standard AC outlets for various electronic devices. Other models offer additional AC outlets and often USB ports to charge all of your devices--from laptops to fans and flood lights.

How many AC outlets does a power inverter have?

Most power inverters have two standard AC outlets for various electronic devices. Other models offer additional AC outlets and often USB ports to charge all of your devices--from laptops to fans and flood lights. If you need a power inverter that can withstand the elements, look for a durable device with features like an aluminum casing.

Which Power Inverter should I buy for my RV?
