At Digital Edge, our founding team share an ambition to raise the standard of digital infrastructure across Asia Pacific, which is why we continuously invest in innovative new ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, ...

Designed for mass production, the innovative system represents a major step forward in addressing growing global energy needs, from AI-driven data centres to industrial ...

Discover the benefits and features of Containerized Battery Energy Storage Systems (BESS). Learn how these solutions provide efficient, scalable energy storage for ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...

As demand for grid-scale storage continues to accelerate across key APAC markets, Trina Storage has been selected to supply advanced BESS technology for several ...

The growth of the Asia Pacific Data Center Energy Storage Market is primarily driven by the increasing demand for reliable and sustainable energy solutions to support expanding data...

Trina Storage has announced it has reached a significant milestone, with more than 2.4 GWh of utility-scale storage capacity currently under execution across the Asia-Pacific ...

In response to fast-growing global energy demands, from AI-driven data centres to industrial electrification,

Large-capacity mobile energy storage containers for Asia-Pacific data centers
