What is the difference between the Zulu and Sierra headsets by Lightspeed? Seems like the Sierra would be a very nice first ANR headset with cell phone interface.

The LightSpeed warranty, in particular, goes with the headset, which helps with the pricing. Beyond that, the single most important consideration is fit and comfort.

Lightspeed Sierra ANR Headset - Dual GA Plugs Try on the latest addition to the Lightspeed line of premium headsets for a new flying experience. With the fit, comfort, ...

Lightspeed really helped Ant-Man get into the action fast in this battle and he was the first casualty to Wolverine. Lightspeed then fell back to try to work with Mass Master on ...

Lightspeed's explanation of mic gain is as follows "mic gain adjustment, which adjusts the sensitivity of the microphone to help balance loud and soft voices you hear in a ...

What so wrong about property ownership rights? The problem is that you believe only you have them, and lightspeed doesn't.

Lightspeed has a nice product, but in my experience Bose has always owned the best of class category. Reliability, sound quality, ANR, unbeatable. Everyone's noggin is ...

I have an original Lightspeed Zulu headset that suffers from degradation of the coating on the "control" unit resulting in a very sticky/tacky surface to the touch. Has anyone ...
