There are many types of battery energy storage systems, including ones that can be installed at home to be used for on-site backup power, larger systems for business use, and even larger ...

Brooklyn Paper recently toured MGN's 5MW / 20MWh energy storage facility on Grand Street in Williamsburg to get a closer look at how the first-of-its-kind site helps ease the ...

This is a list of energy storage power plants worldwide, other than pumped hydro storage. Many individual energy storage plants augment electrical grids by capturing excess electrical energy ...

We are the leading developer of community-scale battery energy storage systems (BESS) in the New York City metropolitan area.

One of the country's largest battery energy storage sites is about to be built on Staten Island. It's part of New York's push for renewable energy. But families there say by the ...

The new Shoreham facility, known as "KCE NY 31," will connect to the existing Shoreham Substation and provide 200 megawatt-hours of energy storage with a four-hour ...

From gravity storage using skyscraper elevators to iron-air batteries that rust on command, the future's wild. And with global storage capacity hitting 3800GW in China alone [8], your local ...

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. ...

Now two years into this controversial endeavor, more than a dozen energy storage sites are currently in the pipeline for Staten Island, several of them set to receive more than ...
