This project is set to be one of the largest floating solar plants in the region, showcasing Mauritius' commitment to cutting-edge renewable energy technologies.

By combining small-scale rooftop systems with larger solar parks, Mauritius is creating a more resilient and sustainable energy system. Mauritius's solar journey is more than ...

This project is set to be one of the largest floating solar plants in the region, showcasing Mauritius' commitment to cutting-edge ...

Discover how a new 10MW solar plant in Moka, Mauritius, is advancing the nation's 60% renewable energy goal with innovative battery storage and green hydrogen production.

The simulations of key scenarios demonstrate that a 100 % RE system for Mauritius is technically feasible within reasonable costs. Solar photovoltaic (PV) and battery energy ...

Already firmly established on neighboring Reunion island, for several years now Akuo has been developing operations on ...

The 10 MW solar plant at Plaine des Roches connects to the CEB's Amaury substation via a 4.5 km, 22 kV line. The facility utilizes 20,328 bifacial panels across 12 hectares, projecting an ...

While renewable energy remains central to our vision, meeting growing energy demands requires firm power generation through conventional means. To address this, we are pursuing projects ...

The 10 MW solar plant at Plaine des Roches connects to the CEB's Amaury substation via a 4.5 km, 22 kV line. The facility utilizes 20,328 bifacial ...

Already firmly established on neighboring Reunion island, for several years now Akuo has been developing operations on Mauritius, which is experiencing rapid energy changes. In 2019 Akuo ...

Affordable on- and off-grid renewable energy with LIXI Lithium battery storage for your Mauritian home and business. Partner for Deye, Growatt and MPP Solar inverters.

The 16.3 MW greenfield grid-connected Solitude Solar Power project provides electricity to the Central Electricity Board on the island of Mauritius. It consists of 59,376 ...
