Smart integration features now allow multiple containers to operate as coordinated virtual power plants, increasing revenue potential by 25% through peak shaving and grid services.

State-owned utility Namibia Power Corporation (NamPower) has issued a tender for six utility-scale solar PV IPPs and an EPC ...

This solar plant, expected to be operational by Q3 2025, marks the first fully merchant independent power producer in the region, enabling renewable energy trading on ...

This article explores the country's unique solar advantages, innovative storage solutions, and how businesses like SunContainer Innovations are reshaping renewable energy adoption.

The Ombru Energy Storage Project is located in central northern Namibia, with a designed storage capacity of 51 megawatt hours. It can release electricity to the grid during ...

As the sun dips below the Kalahari dunes each evening, this lithium-ion and flow battery hybrid system kicks into gear, storing enough daytime solar energy to power 90,000 ...

Namibia will invite tenders for solar PV and storage projects next year as part of its 2025-2030 renewable energy program. The nation aims to build significant solar PV and ...

The modular containerized storage units can be expanded like Lego blocks as energy demands grow. Smart inverters with grid-forming capabilities ensure stability even during sudden cloud ...

Solarcentury Africa Limited and its local partner, Sino Energy (Pty) Limited, have announced the successful
