-----

Nanya is a dedicated DRAM manufacturer offering a diversified product portfolio. With almost 30 years of experience in the DRAM market, the strength of Nanya lies in the combination of ...

Just as planned in the Guiding Opinions on Promoting Energy Storage Technology and Industry Development, energy storage has now stepped out of the stage of early commercialization ...

At Naya we have highlighted Hydrogen as the holy grail for the New Energy Era. We have been extensively working towards building innovative solutions to provide our patrons leading ...

The Nanya Port Energy Storage Wall uses a hybrid system that would make Frankenstein proud - but in a good way. Lithium-ion batteries team up with flow batteries like ...

Nanya Technology Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed ...

At Naya we have highlighted Hydrogen as the holy grail for the New Energy Era. We have been extensively working towards building innovative ...

Taking CKE low provides Precharge Power-Down and Self-Refresh operation (all banks idle), or Active Power-Down (row Active in any bank). CKE is synchronous for power down entry and ...

The Nanya Energy Storage Power Station is more than just another infrastructure project--it's a cornerstone for China's renewable energy transition. With a planned capacity of 800 MWh, this ...

But here's the kicker: traditional diesel generators just won't cut it anymore. Rising fuel costs and stricter emissions regulations have created a perfect storm. Enter energy storage battery ...

Energy storage, and particularly battery-based storage, is developing into the industry's green multi-tool. With so many potential applications, there is a growing need for increasingly ...

What makes Nanya a smart factory? production lines, IIoT, and big data analytics. We further enhance yield, quality and output with AI applications, including predictive ...

Nanya technology treasures its role in DRAM technology and will dedicate itself to further contribute to a Smart World development, which ultimately benefits human beings as a whole.
