General Motors pulled out of a planned battery plant near Lansing and repeatedly delayed production of EVs at its Orion Assembly ...

At the core of every cabinet type energy storage battery factory lies a commitment to cutting-edge technology and meticulous design. These facilities are designed to optimize ...

A shiny new energy storage assembly plant opens with fanfare in 2024, only to hang a "Closed Forever" sign by early 2025. This isn't fiction - it's the reality for over 3,500 energy storage ...

This project marks one of the multiple projects in the Dallas area built for internally-based clients in the battery and energy sectors---with more to come. Our process engineering team ...

Panasonic has officially launched its new cylindrical lithium-ion battery production facility in De Soto, Kansas. The factory spans 4.7 million square feet, making it one of the ...

Those selected projects will retrofit, expand, and build new domestic facilities for battery-grade processed critical minerals, battery components, battery manufacturing, and ...

Those selected projects will retrofit, expand, and build new domestic facilities for battery-grade processed critical minerals, battery ...

Ford Motor Co. is making progress building a 1.8-million square-foot electric vehicle battery plant on a mega site in Marshall.

Panasonic has officially launched its new cylindrical lithium-ion battery production facility in De Soto,
