-----  
Are microinverters tariff-free?

Some microinverters and power electronics, which often were made in Asia, are similarly affected - however, companies like Enphase (U.S.) anticipated tariffs and diversified manufacturing to Mexico and India in recent years, meaning a portion of inverter supply is tariff-free.

What is the new tariff policy for inverters?

Under the new policy, all imports face at least 10% tariff, and specific countries face more - China-made inverters now see ~34% tariff, European inverters ~20%, South Korea 25%, etc.

How will April tariffs affect inverters & solar panels?

Overall, while the solar panel price spike is the most pronounced effect of the April tariffs, inverters are seeing a noticeable cost increase as well, on the order of a few cents per watt.

Which solar companies do not incur import tariffs?

Other "Domestic" Suppliers: A few manufacturers with U.S.-based production or assembly - such as Hanwha Qcells (Georgia factories), First Solar (Ohio), Mission Solar (Texas), and Silfab (Washington) - do not incur these import tariffs on their U.S.-made panels. They have an effective price advantage now.

Energy storage components are subjected to varying import tariffs that depend on several factors, including the specific type of ...
