How does solarnordics sell & distribute solar equipment?

The main segment within the solar industry, where SolarNordics sells and distributes solar equipment, are focused on solar panels, battery and power stations and inverters. SolarNordics distributes and sells through our website, but also through our direct sales team through a B to B sales motion

Why are Nordic solar panels better than standard solar panels?

Because they are more efficient than standard glass solar panels you'll get higher production from a relatively small size. Together with the minimum thickness of only 3mm they are ideal for use on campers, caravans, or other recreational vehicles. The Nordic series is fitted with a smooth surface and is not designed to be walked upon intensively.

What is the Nordic series?

The Nordic Series has been developed by SUNBEAM system for use in its region of origin: the northern latitudes. It offers a universal solution for applications with a requirement for lightweight, flexible, and compact solar panels.

What is a wholesale solar panel kit?

Maxbo's wholesale solar panel kits are built with high-efficiency photovoltaic cells that capture more sunlight and convert it into electricity, even in less-than-ideal conditions. Our panels are constructed using robust materials that are designed to withstand harsh weather conditions, such as heavy snow, wind, and extreme temperatures.

It offers a universal solution for applications with a requirement for lightweight, flexible, and compact solar panels. Because they are more efficient than standard glass solar panels you'll ...
