Go 100% off the grid with off-grid solar systems in Cyprus! Get reliable, battery-powered energy for remote areas without relying on utility companies.

Established three years ago, we are a dynamic and innovative solar company that has relocated to Cyprus, driven by our passion for renewable energy, especially photovoltaic technology.

In 2011, the Cypriot target of solar power, including both photovoltaics and concentrated solar power, was a combined 7% of electricity by 2020. While Cyprus saw a 16% increase in solar panel installations in a 2021 report, the country still grapples with low renewable energy usage, standing at 13.8%, compared to the EU average of 19.7% in 2019.

At ProLuxMax, we are proud to offer advanced solar energy systems that meet the unique needs of Northern Cyprus. Whether you live in a mountain village, a coastal town, or ...

In this paper, an in-depth analysis of small-scale PV in Northern Cyprus is conducted for the first time at 37 locations in Northern Cyprus. No previous study has ...

Thinking of solar panels in Cyprus? Our 2025 buyer's guide covers prices, pros & cons, and expert tips to help you make the right choice.

The proposed system is designed for an agricultural area (Gonyeli, North Cyprus) with high solar potential and limited rainfall. In the present study, global rainfall datasets are ...

Currently, Cyprus has 125 MW of solar power capacity. The country aims to increase total renewable energy penetration in the electricity sector to 700-750 MW by 2023, primarily ...
