Major ports such as Mumbai (Nhava Sheva), Chennai, and Mundra have higher availability and competitive prices. Containers sourced near ports are typically 10-15% cheaper than those purchased inland.

How does depreciation affect container prices in India?

Container prices are often benchmarked in USD. With the rupee averaging INR87.9 per USD in late 2025, any depreciation directly raises container import or leasing costs. Even domestic resellers adjust pricing to account for global USD-indexed trade values, which means Indian buyers indirectly absorb exchange-rate risk.
