Rome, March 11 th, 2021 - Enel X opens Rome's first area for the ultrafast charging of electric vehicles and the European "CEUC" (Central European Ultra Charging) project's first HPC ...

Mercedes-Benz Energy provides a 6-string storage system, distributed across two containers (one 40-foot and one 20-foot), offering a total capacity of over 5.5 MWh. The system is built with ...

Italy's largest energy storage system based on used batteries for electric vehicles was inaugurated on Tuesday at Rome's Fiumicino airport to help it reduce carbon emissions.

Pioneer is the largest storage system in Italy with regenerated batteries, created by Enel with Aeroporti di Roma, Loccioni and the Fraunhofer Institute.

Developed by Italian utility Enel and airport operator Aeroporti di Roma (ADR), the 10 MWh battery energy storage system (BESS) ...

The tender, launched by ADR and won by Atlante, is part of the company's broader sustainability strategy, which, in addition to the electrification of its car parks, will focus on on ...

Enel: Italy launches an innovative energy storage system at Rome's Fiumicino airport, utilizing old electric vehicle batteries to significantly reduce carbon emissions and store ...

This project repurposes over 700 used Nissan LEAF batteries, integrating them with a 30 MW photovoltaic plant. The initiative, co-funded ...
