Discover how UC San Diego's Energy Storage Group is driving the future of renewable energy with cutting-edge research in battery storage, microgrids, and carbon removal.

The West Side Canal facility now boasts 231 MW of energy storage capacity and is the largest asset in SDG& E's utility-owned battery storage portfolio. This expansion represents ...

The table below contains the title, Headquarters location, and funding information for each project. To learn more about a specific project, click on the project name.

SDG& E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy storage by year-end, including the ...

SDG& E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy ...

Cleantech San Diego member San Diego Gas & Electric (SDG& E) announced today that five new energy storage projects totaling 83.5 megawatts (MW) and one demand response program ...

SDG& E has been rapidly expanding its battery energy storage and microgrid portfolio. We have around 21 BESS and microgrid sites with 442 megawatts (MW) of utility ...

What's the Buzz About San Diego's Mega Battery Farm? Ever wondered how California keeps its lights on when the sun takes a break? Enter the San Diego Energy ...

Learn more about the County of San Diego's Battery Energy Storage Systems Project.
