The Energy Sector Rehabilitation Project focuses on the rehabilitation and expansion of the hydro power plant of Contador, located on the island of S. ALER had the opportunity to visit ...

French energy giant TotalEnergies has started construction on a solar-plus-storage project in South Africa, with a power generation capacity of 216MW and a battery output of ...

As small island nations face growing energy challenges, Sao Tome and Principe has unveiled a groundbreaking energy storage policy to stabilize its grid and accelerate renewable adoption.

Sao Tome and Principe has been a multiparty, semi-presidential, democratic system since its independence, and it has been a model for the democratic transition of power in Central Africa.

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW.

The objective of the project HA-G1048 is to maximize the use of the energy produced by the 8-MWp solar photovoltaic plant (SPP) to further reduce the use of thermal power, by ...

Welcome to the Sao Tome Wind and Solar Energy Storage Project - a game-changer that's turning this volcanic archipelago into a clean energy laboratory. But why should you care ...

This article targets energy policymakers, renewable energy investors, and tech-savvy environmentalists curious about how energy storage can transform off-grid communities.

Global OTEC has signed what's said to be the world's first deal to develop a power purchase agreement
