Researchers developed the world's first inland shipping vessel that harnesses both solar power and generator power.

The companies highlight that the solar system is an advancement on the record-setting 312 solar panels installed last year ...

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ...

Dutch solar innovator Wattlab has delivered a breakthrough energy system for HGK Shipping's cargo vessel Blue Marlin, marking a major step forward in sustainable inland shipping.

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar ...

Dutch marine solar developer Wattlab has supplied a solar energy system for HGK Shipping's inland cargo ship, The Blue Marlin, marking a milestone in maritime sustainability.

Dutch solar innovator Wattlab has delivered a breakthrough energy system for HGK Shipping's cargo vessel Blue Marlin, marking a major step ...

With 192 solar panels installed, the Blue Marlin can generate up to 37,500 kilowatt-hours (kWh) of electricity each year. For the first ...

In a groundbreaking advancement for sustainable shipping, Dutch solar technology firm Wattlab and German

Seismic-resistant containers for ships

solar-powered
