---

The project aims to increase energy access across Sierra Leone through a dual approach: installing mini-grids in strategic communities and ...

The project is set to benefit 25,000 households and 2,800 businesses across approximately 60 communities, offering them reliable, clean and affordable electricity for the ...

As Sierra Leone accelerates its renewable energy transition, the Lightweight Photovoltaic Module Project Bidding has emerged as a game-changer. Targeting both domestic and international ...

This greenfield 50MW solar power project, developed by Frontier Energy and Planet One, will be the country"s first large-scale grid-connected solar Independent Power ...

This milestone project, implemented by Off-Grid Power * (funded by PIDG company, InfraCo Africa) aimed to provide first-time electricity to 6,657 ...

SOGREA aims to increase energy access in rural communities across the country by 2027, deploying at least 5.2 ...

This greenfield 50MW solar power project, developed by Frontier Energy and Planet One, will be the country"s first large-scale grid ...

This landmark initiative, funded by the European Union and implemented by UNOPS and its hosted entity, Sustainable Energy for All (SEforALL), is a significant stride toward Sierra ...

This milestone project, implemented by Off-Grid Power * (funded by PIDG company, InfraCo Africa) aimed

to provide first-time electricity to 6,657 households & businesses in Sierra ...

Backed by major development partners including the European Union (EU), the United Nations Office for Project Services (UNOPS), and Sustainable Energy for All ...

SOGREA aims to increase energy access in rural communities across the country by 2027, deploying at least 5.2 megawatts peak (MWp) of solar generation capacity through ...

The project was developed in partnership with UNOPS, with a focus on enabling private sector entities to develop, finance, own, and operate solar minigrids.
