"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible ...

Global battery giant CATL has raised the bar for large-scale energy storage solutions with the debut of its TENER Stack, the world's first 9MWh ultra-high-capacity system set for mass ...

TENER Stack incorporates CATL's high-energy-density cells with five-year zero degradation technology, achieving a 45% improvement in volume utilisation and a 50% ...

This isn't simply a larger container. Rather than building a single oversized unit that would trigger regulatory and logistical issues, CATL introduced a modular "two-in-one" ...

The world's biggest battery maker unveiled its latest utility-scale battery energy storage product- the Tener Stack - at the Smarter E ...

At ees Europe 2025, CATL launched TENER Stack, the world's first mass-produced 9MWh ultra-large-scale energy storage ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL ...

It achieves a 45% improvement in space utilization and a 50% increase in energy density over traditional 20-foot container systems. With a capacity of 9MWh, it can charge 150 ...

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which,
