---

Slovenia's state-owned utility HSE is driving the country's energy transition with the deployment of 800MW of energy storage by 2035, including 590MW of pumped hydro energy ...

Slovenia's HSE signs a EUR100M deal for 80 MW of new solar power plants with integrated battery storage, advancing the nation's ...

By harnessing the power of solar and wind energy, Slovenia is not only reducing its carbon footprint but also enhancing energy security. Investments in battery storage systems and ...

Slovenia has secured 11.9 million euros in EU funding to boost community self-supply of electricity from renewable sources between 2025-2027. The funds will support ...

That's exactly what Ljubljana's energy storage power initiative is achieving. Nestled in Slovenia's capital, this project combines cutting-edge battery tech with smart grid ...

Slovenia's HSE signs a EUR100M deal for 80 MW of new solar power plants with integrated battery storage, advancing the nation's renewable energy goals for 2050.

Jinko ESS, a global leading energy storage company and a subsidiary of Jinko Solar Co., Ltd. has further expanded its European presence with the signing of a 15MWh utility ...

Slovenia targets 400 MW in BESS, 100 MW in electrolyzers and more pumped storage in the updated Integrated National Energy and Climate Plan.

Slovenia has emerged as a key player in Europe's renewable energy transition, with its energy storage power stations gaining attention for balancing grid stability and supporting solar/wind ...

Search all the announced and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Slovenia with our comprehensive ...

European Commission has approved a EUR150 million Slovenian scheme to support the rollout of renewable energy and heat as well as energy storage, in line with the Green Deal Industrial Plan.

Slovenia targets 400 MW in BESS, 100 MW in electrolyzers and more pumped storage in the updated Integrated National Energy and ...
