The energy storage facility delivered by Merus Power to Lappeenranta, Finland, has been completed and put into market use on 15 May 2025. The energy storage facility is ...

In northern Finland, less than 100 kilometres south of the Arctic Circle, a new battery storage facility is now supporting the stability of the regional power grid. The plant, ...

Based in Helsinki since 2018 and in Lappeenranta since 2023, Neoen's Finnish team is developing multiple wind, solar and storage projects across the country. Yllikkala ...

Discover how next-gen battery technologies like solid-state, sodium-ion, and flow batteries are revolutionizing solar energy storage, making solar power more reliable, scalable, and ...

The project aims to enhance grid stability and support Finland's transition to renewable energy sources. The PowerTitan system integrates a 5 MWh battery with a 2.5 MW ...

Summary: Finland is accelerating its energy transition with innovative battery storage projects. This article explores companies operating energy storage power stations in Finland, analyzes ...

In a small Finnish town with a big climate goal, an unassuming tower of sand is quietly storing solar and wind energy all while making a ...

In a small Finnish town with a big climate goal, an unassuming tower of sand is quietly storing solar and wind energy all while making a powerful statement about clean tech ...

In Finland, the largest battery storage system is currently operating in Olkiluoto, and its development is rapid

compared with the nuclear power plant operating at the same location.

The project aims to enhance grid stability and support Finland's transition to renewable energy sources. The PowerTitan system ...

Huijue Group's new generation of liquid-cooled energy storage container system is equipped with 280Ah lithium iron phosphate battery and integrates industry-leading design concepts.

Global solar and energy storage leader Sungrow has announced the successful commissioning of a 60MWh Battery Energy Storage System (BESS) project in Simo, Finland, ...
