What is a high-capacity solar trailer?

A high-capacity solar trailer, like the SPOG Trailer, is an essential tool for natural disaster preparedness. Built with peace of mind in mind, it provides reliable, off-grid power to keep essential devices and appliances running during emergencies.

How do solar panels work on a trailer?

The hydraulic lift sits at the front of the trailer. Using the wired in, handheld controller (See video), you'll be able to deploy the panel array for solar harvesting in 5 seconds. Controller has magnetic backing for mounting on the outside of the trailer body. The dual solar DC disconnects adds in an extra layer of electrical protection.

How much does a solar trailer weigh?

The solar trailer's driving height is just over 10'. With trailer pulling experience, this can be deployed by two people in less than 5 minutes, allowing you to get your powered trailer up and running rapidly and easily. Each Solar Platform can be customized to fit your specific needs. Approx. 2800 lbs.

How does a solar trailer controller work?

Controller has magnetic backing for mounting on the outside of the trailer body. The dual solar DC disconnects adds in an extra layer of electrical protection. Turn off or on your entire array with just a turn of the switch. All the wiring and accessories to hook up your truck and solar trailer for hauling.

Custom-built solar trailers with power, lighting, surveillance, and Wi-Fi. Mobile, off-grid, and scalable solutions for construction, events, disaster response, and remote sites.

If the trailer can reach the site and the solar array has sunlight, you have power. This system is fully scalable and can be upgraded to meet evolving energy demands.

Solar powered mobile platform with a total of 1290W solar power, 1200Ah battery array, and 23"6" height. Customize to add lighting, surveillance, or communications equipment.

A POWRBANK fitted with a solar PV trailer supplied power to the irrigation system in a remote potato field

without grid access. The solar panels were used as the main source for powering ...

With solar capabilities and offgrid functionality, this trailer provides reliable power on-the-go. Perfect for offgrid enthusiasts and those looking for a ...

A high-capacity solar trailer, like the SPOG Trailer, is an essential tool for natural disaster preparedness. Built with peace of mind in mind, it provides reliable, off-grid power to keep ...

SunWing(TM) offers a portable solar and battery power solution as a trailer, making it easy to have clean energy on the go.

A Net Zero Trailer from Craftsmen Industries is a self-contained mobile unit powered primarily by renewable energy, most often solar power. Designed for complete off-grid operation, it ...

Custom-built solar trailers with power, lighting, surveillance, and Wi-Fi. Mobile, off-grid, and scalable solutions for construction, events, disaster ...

Whether you're powering off-grid job sites, telecommunications towers, disaster relief zones, or remote events, our solar trailers deliver reliable, scalable energy without the need for fuel.

With solar capabilities and offgrid functionality, this trailer provides reliable power on-the-go. Perfect for offgrid enthusiasts and those looking for a sustainable energy option.

Using the wired in, handheld controller (See video), you'll be able to deploy the panel array for solar harvesting in 5 seconds. Controller has magnetic backing for mounting on the outside of ...
