Can you use solar panels in St John's?

St. John's may not be known for its sunny weather, but that doesn't mean you can't harness the power of the sun with solar panels. In fact, even on cloudy days, solar panels can still generate electricity from diffused sunlight.

Should you install solar panels in St John's Newfoundland & Labrador?

In St. John's, Newfoundland and Labrador, there are several considerations when it comes to installing solar panels. The first consideration is the size of the system needed for your home or business. This will depend on factors such as how much electricity you use, the amount of available roof space, and your budget.

Do I need a building permit for a solar installation?

A Building Permit is required for solar installations, including: If you are a licensed contractor more information can be found here. For first time users, as noted above, you will need to register for a new account with our Online Permitting System. If you have an account, please continue with Step 2 below.
