We produce a wide range of capacitors that deliver exceptional performance and reliability while standing up to demanding conditions. We seek to ...

The TDK aluminum electrolytic capacitors feature outstanding ripple current capabilities and very long-term reliability. Design flexibility and engineering expertise allow ...

With protruding leads for easy PCB installation, these capacitors offer high capacitance and voltage, making them ideal for power supplies, ...

We produce a wide range of capacitors that deliver exceptional performance and reliability while standing up to demanding conditions. We seek to continually improve our capacitors, driven by ...

It covers construction in depth and discloses the latest information on performance and application for the major aluminum electrolytic types made worldwide. We encourage you to ...

Our range of aluminum electrolytic capacitors offers superior durability, long service life, and high capacitance-to-volume ratios, making them ideal for applications where space is limited but ...

The aluminum electrolytic capacitor consists of a wound element, impregnated with liquid electrolyte, connected to terminals, sealed in a can and then aged to reduce or eliminate early ...

Distributor of supercapacitors / ultracapacitors for HVAC controls, computers, audio equipment, cameras, telephones, memory backup, electronic meters, scanners and industrial equipment ...

With protruding leads for easy PCB installation, these capacitors offer high capacitance and voltage, making

them ideal for power supplies, photovoltaic systems, and industrial equipment. ...

The electrical characteristics of aluminum electrolytic capacitors with plain (not etched) foils are, in part, better, but these capacitors are considerably larger and are only used for special ...

Standard (non-hermetic) Flatpack capacitors, types MLP (85°C) and MLSG (125°C 5000 hours) have been used extensively in military/aerospace applications for more than 30 years.

Aluminum electrolytic, motor-start capacitors are non-polar and designed for intermittent operation in starting single-phase induction motors or for other brief AC applications such as motor-run ...
